FEMA

Logistics Management Function, Mission & Focus

- **Function**: FEMA's **major program office** responsible for logistics policy, guidance, standards, execution and governance for support, services and operations
- **Mission**: Effectively **plan, manage** and **sustain** the national logistics response and recovery operations, in support of domestic emergencies and special events – to serve as the **National Logistics Coordinator**
- **Focus**: Institutionalize **Command** and **Coordination** of strategic logistics planning, operations and management while **pushing operational control and execution down to the most effective level of execution**

Logistics Management Transformation Initiative

NLC will improve communication, collaboration & execution

- Sourcing decisions based on all national logistics partners' available capabilities

Current focus:

- Establish national procedures & visibility for collaboration & coordination

Future efforts:

- Increase automation & expand scope to the region & state level
